34. Which aspects of the course did you like the best?
the fact that I actually learned a lot, unlike many other classes at UH
I liked the readings and the movies that connected to our readings. I also like that the class was small and you had good communication between teacher and students
The lectures, readings, and movies were all very interesting.
engaging conversations and current course material applicable to the real world
The use of debates as well as videos to further enhance our interpretations of the material being taught.
I really liked watching the films and discussing them.
What I liked best is that I was able to gain and retain knowledge of information that I learned. If I did not take this course I would not be able to learn what I learned this semester.
-movies -lectures
The class discussions and debates were the most helpful to me. I thought that we learned a lot from hearing others speak about the topic through different perspectives. The students were actively involved and enthusiastic about the class.
Group and class discussions.
I liked reading about the stories which normally are not presented in news headlines and are more commonly swept under the rug though the general public knows its going on.
the course layout was simple in respect to assignments and grading.
discussion of what the articles were really getting at. as well as the big picture at the end.
I liked the discussions because when we talked about our readings, it helped me to understand the material better.
the wide variety of information and perspectives and the sequential introduction of information to help us gain a solid general understanding of globalism. Very interesting and enlightening
Discussions and uses of various teaching methods to keep the subject matter interesting and thoughtful.
Movies
I liked everything because everything was new to me. Although the material is challenging, it was very interesting, and it's something everyone should learn. The articles and the required text were strong sources in making this course engaging and fun.
I like the atmosphere and the invitations in to discussion that the instructor gave us, the students. I also like the amount of relevant and interesting information given to us.
Discussions.
I really enjoyed the class discussions.
I loved watching the videos because they showed me a lot of things that was going on in the world that I was not aware of. It's different reading about, and seeing it happen.

35. Which aspects of the course did you like least?

Because I didn't always understand the material it made the papers much harder to write so those would have to be the aspect I liked the least

nothing, it was a great course.

I actually enjoyed this class throughout the whole time. I do not think I have anything bad to say about this course.

Writing the papers.

N/A

none, it was great

The part that i didn't like was the essays but i guess since a writing intensive class you can't help that.

Reading assignments every nights, most nights are fine but it might help to have "a night off."

none

it was all pretty good in my opinion.

I didn't like the readings as much because the were very wordy and difficult to understand.

it was difficult to keep up with the reading but overall i was very happy with the course

some of the readings were too long

Reading

Nothing. No complaints.

Some of the readings were a little lengthy so it took a lot of time to finish it between my schedule.

The readings were a bit too much.

Some of the readings were long, but other than that, the class was great.

36. My overall evaluation of this course is...

I would recommend it to people that are already interested in globalization, the economy, or current events but not to people that don't really understand it.

GREAT CLASS!

AWESOME POSSOM :)

One of the best courses I have taken, so long as it is taught by this same teacher.

This is a great course. I learned a lot about the topics and we got to work with our classmates for debates.

This is a great class. I encourage others to take this course even though you are not an American Studies major. It opens up your eyes to things that you might not have learned and also it gives you another way to view events that happened, currently happening, and what is going to happen.

Awesome!

This class is awesome i would take it again next year if it wasn't a waste of credits to take it again

Very good course

This was a great course and even though I originally took it for the W credit, I feel that this course was very intellectually stimulating.

this course was very insightful and it opened my mind to a lot of different issues i was not aware of.

very good.. would definiltey recommend it.

I enjoyed the class as long as it was taught by Llorca because he was very helpful. Overall, I feel that I've learned a lot of important issues.

positive. The teacher did a great job and is very passionate about his subject

Excellent course and teacher

Great

It's a good course, I'd take it again.

A great, informative course, with material that is rare to come by, and valuable, nonetheless. I was enlightened by the discussions as I gained a lot of knowledge that I had previously not known before. Strongly recommended as the information it provides is imperative for one's grasp of the world around them.

Beyond excellent and beyond my expectations.

Good.

I learned a lot of things from this class that I had not known before. It was a very informative course.

Great class. Would take again!
